

SG BOND

High Strength Two-Component Epoxy Adhesive

SG BOND is a high-performance epoxy adhesive offering superior bond strength, longer working time, and excellent adhesion to multiple materials.

■ Usage Details ■

Application Area	Usage Context	Substrates	Bonding Materials	Working Time	Chemical Resistance
Industrial Construction Household Repairs Appliances	Automotive Electrical General Assembly Manufacturing	All Types of Cement Concrete Stone Marble	Metal Ceramic Wood Glass, Rubber, Leather	Long Working Time Extended Pot Life	Mild Acids & Alkalis Excellent

■ Technical Details ■

Conforms To	Physical Form	Compatibility	Adhesive Type	Properties	Packing Sizes
EN 12004 R2T and ISO 13007 R2T IS:15477-2019 (Type 5).	Translucent Liquid	All Types of Cement	Two-Component Epoxy Adhesive	High Strength, Solvent Free, Non- Toxic, Electrical Insulation	450 gm, 1 Kg
