

SG SBR

Polymer-Modified Styrene Butadiene Rubber (SBR) Bonding & Waterproofing Admixture

SG SBR is a milky white SBR latex emulsion that enhances cement mortars and concrete by improving bonding, flexibility, and waterproofing performance for durable construction.

Usage Details

Application Area	Usage Context	Substrates	Applications	Coverage	Colour
Floor	Internal	Concrete	Bonding Agent	70-80 Sq.Ft./kg*	White
Wall	External	Cement Mortar	Waterproofing	(2 Coats)	
Repair Work	New & Renovation	Masonry & Plaster	Repair Mortar	Mix Ratio 1:1:2	

Technical Details

Conforms To	Physical Form	Mix Ratio	Key Benefits	Packing Sizes
ASTM C1059 / C1059M	Milky White Liquid	60 Minutes	High Bond Strength, Waterproofing & Flexibility	100ml, 250ml, 500ml, 1L, 5L, 10L, 20L
