

# SG MASTER SBR

**Polymer-Modified Styrene Butadiene Rubber (SBR) Latex**

SG MASTER SBR - Latex-based waterproofing & bonding admixture for stronger adhesion, superior flexibility, and long-lasting durability.

## Usage Details

| Application Area | Usage Context | Substrates             | Applications                   | Coverage        | Packing Sizes      |
|------------------|---------------|------------------------|--------------------------------|-----------------|--------------------|
| Floor, Wall      | Waterproofing | Concrete               | Concrete Repairs               | 70-80 Sq.Ft./Kg | 1, 5, 10 & 20 Ltr. |
| Roof             | Bonding Agent | Masonry                | Floor Toppings                 | (2 Coats)*      |                    |
| Tanks & Pools    | Repair Works  | Cement Plaster/ Mortar | Waterproof Plaster             | Mix Ratio 1:1:3 |                    |
|                  |               |                        | Waterproofing of Tanks & Pools |                 |                    |
|                  |               |                        | Crack Repair                   |                 |                    |

## Technical Details

| Conforms To | Physical Form            | Mixing Compatibility      | Bond Strength      | Water Resistance        | Safety                    |
|-------------|--------------------------|---------------------------|--------------------|-------------------------|---------------------------|
| ASTM C 1059 | Milky White Latex Liquid | Cement, Mortar & Concrete | Excellent Adhesion | Excellent Waterproofing | Non-Toxic & Non-Flammable |

**High Bond Strength**

**Waterproofing Admixture**

**Excellent Flexibility**

**Easy to Mix & Apply**
