

SG IWC SUPER

(Integral Liquid Waterproofing Compound)

Polymer-Based Waterproofing Admixture for Concrete, Mortar & Plaster

SG IWC SUPER is a high-performance integral liquid waterproofing compound that enhances concrete, mortar, and plaster by improving cohesiveness, reducing segregation, and providing durable, long-lasting waterproof protection.

Usage Details

Application Area	Usage Context	Substrates	Application	Dosage	Packing Sizes
Concrete	Internal	Cement Concrete	Waterproofing	200 ml / 50 kg Cement	1,5,10,20 & 50 Ltr.
Mortar	External	Cement Mortar	Mortar Mix	Recommended	Containers
Plaster	Wet Areas	Cement Plaster	Plastering		
Roof Slabs	Waterproofing	RCC Structures	Roofs, Basements, Water Tanks		

Technical Details

Conforms To	Physical Form	Color	Application Method	Performance	Packing Sizes
IS 2645 : 2003	Liquid	Brown	Mix with Water Before Concrete Mixing	Waterproofing Admixture	1,5,10, 20 & 50 Ltr

**Corrosion
Resistant**

**Waterproofing
Protection**

**Improves
Strength**

**Easy to
Mix & Apply**
