

SG IND GROUT-65

High Strength, Free Flow, Non-Ferrous Cement-Based Grout

Non-Shrink Cementitious Grout

SG IND GROUT-65 is a high-strength, non-shrink cementitious grout with excellent flow, low water demand, and superior durability. Ideal for precision grouting, structural anchoring, and equipment base installations.

Usage Details

Application Area	Usage Context	Substrates	Application Type	Yield	Packing Sizes
Machine Foundations	Industrial	Concrete Base	Base Plate Grouting	13.3 Ltr (Flowable)	25 Kg Bag
Anchor Bolts	Construction	RCC Structures	Anchoring	12.5 Ltr (Pourable)	
Turbines & Compressors	Heavy Equipment	Concrete Foundation	Precision Grouting	High Strength	
Fence Posts & Masts	Structural Works	Cement Concrete	Structural Fixing	Free Flow
