

SG IND GROUT-50

Free Flow Structural Grout for Precision Equipment & Foundation Applications

High Strength Non-Shrink Cementitious Grout

SG IND GROUT-50 is a ready-to-use, non-shrink, high-strength structural grout with excellent flowability and early strength. Ideal for precision grouting, machinery foundations, structural repairs, and anchoring applications.

Usage Details

Application Area	Usage Context	Substrates	Application Type	Yield	Packing Sizes
Machine Bases Equipment Bases Structural Columns Anchor Bolts & Compressors	Industrial Structural Heavy Construction Foundation Works	Concrete Foundation RCC Structures Cement Concrete Machine Foundations	Precision Grouting Base Plate Grouting Precision Grouting Anchoring & Filling	13.7 Ltr (Flowable) High Strength Free Flow Non-Shrink	25 Kg Bag
