

SG MICRO CONCRETE

Ready-to-Use Non-Shrink Repair Micro Concrete

SG Micro Concrete is a ready-to-use, non-shrink repair material for structural concrete repairs. It delivers high strength, excellent flowability, and is ideal for congested reinforced sections where compaction is difficult.

Usage Details

Application Area	Usage Context	Substrates	Application Type	Coverage	Packing Sizes
RCC Columns	Structural Repair	Reinforced Concrete	Pumpable / Pourable	1.3 Sq. m./25 kg @ 10 mm Thickness*	25 Kg Bag
Beams	Strengthening	Concrete Structures	Free Flowing	Depends on Substrate	
Walls	Restricted Access Repairs	RCC Members	Non-Shrink Repair
