# SG HARDENER PLAST

## High-Performance Plasticizer for Zero Slump Concrete

**SG Hardener Plast** is a concrete plasticizer for low-to-zero slump concrete. It improves compaction, boosts strength, reduces production time and delivers a superior surface finish.

## Usage Details

| Application Area | Usage Context | Concrete Types | Application | Dosage | Packing Sizes |
|---|---|---|---|---|---|
| Concrete Blocks | Block Manufacturing | Zero Slump Concrete | Plasticizing Admixture | 0.2 – 0.8 Kg / 100 Kg Cement | 200 Kg Barrel |
| Paving Blocks | Paver Production | Dry Concrete Mix | Strength Enhancement | Site Trial Recommended | |
| Precast Products | Industrial Concrete | Low Slump Concrete | Improved Compaction | | |

## Technical Details

| Physical Form | Performance | Strength Gain | Workability | Colour |
|---|---|---|---|---|
| Liquid | Plasticizing Admixture | Up to 15% Strength Gain at 2 & 5 Days | Superior Compaction & Finish | Brown Liquid |

High Strength

Fast Production

Superior Finish
