

SG ACRYLIC ELASTOMERIC BLACK MEMBRANE

Flexible Liquid Applied Waterproofing Membrane

SG Acrylic Elastomeric Black Membrane is a styrene-butadiene based liquid waterproofing membrane that provides excellent crack bridging, flexibility, and long-lasting protection against water ingress.

Usage Details

Application Area	Usage Context	Substrates	Application Type	Coverage	Packing Sizes
Bathrooms	Internal	Concrete	Waterproof Membrane	20-30 Sq.Ft./Kg	4 Kg
Sunken Slabs	Wet Areas	Cement Plaster	Liquid Applied Coating	Depends on Porosity	10 Kg
Floors	Residential	Masonry	Crack Bridging Coating		20 Kg
Waterproofing Works	Commercial	Cementitious Surface	Flexible Membrane		

Technical Details

Physical Form	Coating Type	Crack Bridging	Flexibility	Coverage	Color
Liquid Compound	Styrene-Butadiene Membrane	Hairline Cracks up to 0.5 mm	High	20-30 Sq.Ft./Kg	Black
